**MEDIUM TERM
BUDGET ESTIMATES
FOR SERVICE DELIVERY**
(Output Based Budget)

Preamble

Medium Term Budget Estimates for Service Delivery (2020/23) has become a regular feature of budget preparation process in Khyber Pakhtunkhwa. This compilation for Financial Year 2020 is a manifestation of the Medium Term Budgetary Framework (MTBF) with Output Based Budgeting (OBB) methodology as adopted by the Government of Khyber Pakhtunkhwa (GoKP). OBB, as the name suggests, focuses directly on improving the ability of budgeting to achieve Efficiency and Effectiveness. However, full-fledged implementation of OBB within the broader framework of MTBF at departmental level is still a challenge. Nevertheless, the GoKP has employed a methodical and coherent approach to improve capacity of departments in reviewing and further improving their KPIs to enable them to undertake structural and procedural reforms in due course of time.

The exercise provided further impetus to the administrative departments to assess and evaluate their activities and outputs from OBB perspective. Moreover, the timely initiation of budget cycle for budget 2020/21 with a composite approach exhibits the next generation improvements to optimize the implementation of OBB for improved public service delivery.

In the end, I would like to commend the cooperation and efforts of all departments in general and the staff of Finance Department in particular for making it possible to publish the Medium Term Budget Estimates for Service Delivery 2020/23 despite highly constrained timelines.

Atif Rehman
SECRETARY, FINANCE DEPARTMENT

Medium Term Budget Estimates 2020-23

Introduction

Vision

Attainment of a secure, just and prosperous society through socio-economic and human resource development, creation of equal opportunities, good governance and optimal utilization of resources in a sustainable manner.

Mission

- Ensure peace and security for all citizens.
- Provide a clean and efficient Government.
- Empower the people to take decisions about their affairs.
- Ensure that the rights of the citizens are respected.

The effective realization of the vision and mission of the GoKP is facilitated by MTBF with Output/service delivery oriented planning and budgeting. Salient features of this form of budgeting include:

- Supports attainment of aggregate fiscal discipline, allocative and operational efficiencies;
- Brings an inclusive and strategic perspective to annual planning and budgeting;
- Ensures inter-se linkages between the strategic policies and priorities with budget;
- Incorporates medium term perspective of 3 years in the planning process via greater predictability on availability of funds;
- Fosters greater service delivery orientation viz-a-viz execution of operational plans through annual budget and assessment of performance outcomes against performance benchmarks¹;
- Facilitates integration of recurrent and development portfolios; and
- Brings in citizens' perspective in budget preparation through pre-budget consultations and budget polls.

Gender Sensitive Budgeting

The budget guidelines issued via Budget Call Circular 2018-19 and Annual Development Program (ADP) guidelines require all the Administrative Departments to have gender disaggregated key performance indicators. The purpose of this initiative is to make visible the effect of the steps taken by the Government for mainstreaming gender equity and make assessments of the funds that are being spent on having gender equality and equity in Government operations. Like previous year, this year eight Provincial Line Departments continued using gender disaggregated information for Key Performance Indicators on public service delivery; capacity-building efforts etc. and planned several activities for the forthcoming years to promote gender equity and equality.

¹ Disclaimer: Progress against Targets for 2020-21 as reported by the Departments is up-to May 2020 and those KPIs against which information not provided by the Departments are qualified to have zero progress.

Local Governments

Clause (i) of Article 37 of the Constitution of the Islamic Republic of Pakistan, as a principle of policy, requires decentralization of government administration so as to facilitate expeditious disposal of its business to meet the convenience and requirements of the public.

Clause (1) of Article 140A of the Constitution of the Islamic Republic of Pakistan, provides for establishment of a local government system and devolution of political, administrative and financial responsibility and authority to the elected representatives of the local governments.

Pursuant to the aforesaid Constitutional Provisions the GoKP achieved political, administrative and financial devolution to the local governments established during 2015-16 under the Local Government Act, 2013. This laid an unprecedented three tiered system of local governments having 28 District Governments; over 93 Tehsil Municipal Administrations; and 3,501 Village & Neighborhood Councils effective since FY 2015-16. Fiscal transfers by the provincial government are made to these local governments through GoKP annual budget, with a historic allocation of not less than 30% of the GoKP ADP in spirit of Section 53(a) of the LGA, 2013.

An overview of the annual resource transfers to local governments is as given below:

Minerals Development Department

Khyber Pakhtunkhwa has significant resources of dimensional stones (especially marble and granite) precious stones and metals, some industrial minerals, energy minerals and salt. Dimensional stones are of particular importance: there are 06 different types of marble blocks with known reserves of more than 100 million tons and 02 of more than 1 billion tons. Granite resources are also widespread in the northern districts of Khyber Pakhtunkhwa. However, mineral extraction contribution to GDP is still small (at 0.1% of GDP), but it has the potential to grow rapidly. Furthermore, most of the mineral resources are located in relatively poor areas of the Province, and mineral extraction is therefore likely to benefit the poorest members of society. Minerals Development Department is responsible for the management of mineral resources in the Province in terms of regulating the grant of licenses and mining leases, exploration and development of mineral resources as well as welfare of mine workers and enforcement of laws related to safety of mines and workers

Transport and Mass Transit Department

Road Network is the backbone of trade and commerce of a country. In the wake of globalization and economic interdependence, the National Trade Corridor Improvement Program (NTCIP), followed by China Pakistan Economic Corridor (CPEC) provides an overarching premise. The NTCIP envisages two main arteries traversing Khyber Pakhtunkhwa to Afghanistan and Central Asian Republics (CARs) on the one side and Kazakhstan and Kirgizstan to the other. Whereas, CPEC provides linkage from Kashger-Gawadar to Middle East and Europe. An elaborate Trucking Policy invoked by the Ministry of Industries, Petroleum and Special Initiatives (MOIP & SI). Trucking Sector modernization is inevitable as dependence on road freight constitutes almost 96% of total ton/km movement of goods.

NTCIP, CARs and CPEC require systemic qualification, monitoring, and evaluation of current traffic volume, prospects of economic and traffic growth, capacity to increase between economic rail markets, potential to mitigate delays and hindrances under economic and financial sustainability.
