

No. 133

ADJOURNMENT MOTION

Session 15th

Date: 22-04-2015

No. 133

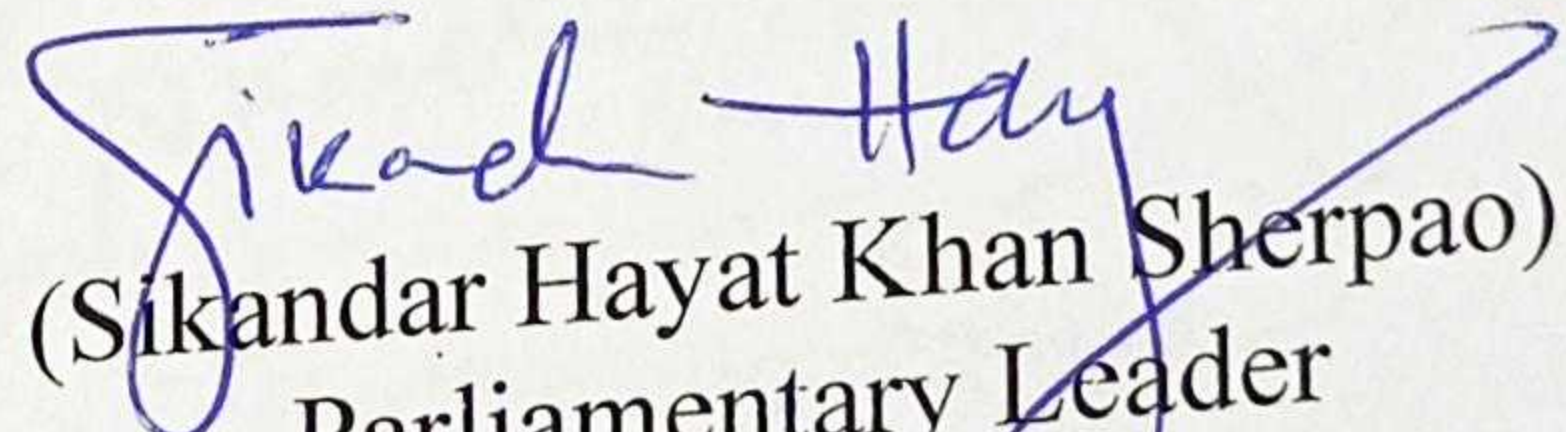

Mr. Speaker

Date 23-4-2015

Department Law

In the recent visit of the President of Peoples Republic of China numerous infrastructure development and energy generation projects were signed. Khyber Pakhtunkhwa being a backward Province and suffering from terrorism deserved more share. Despite assurance from the Federal Government, the Province has been ignored. This step motherly attitude meted out to the Province of Khyber Pakhtunkhwa and FATA has given rise to feelings of outrage amongst the Pakhtuns and thus requires a thorough debate in the house to discuss the consequences.

I move that the normal agenda may be adjourned and a debate may be held on this important issue.
