

Session 12th

No 81

Date 18/4/2014

Department Law/mine & mineral development

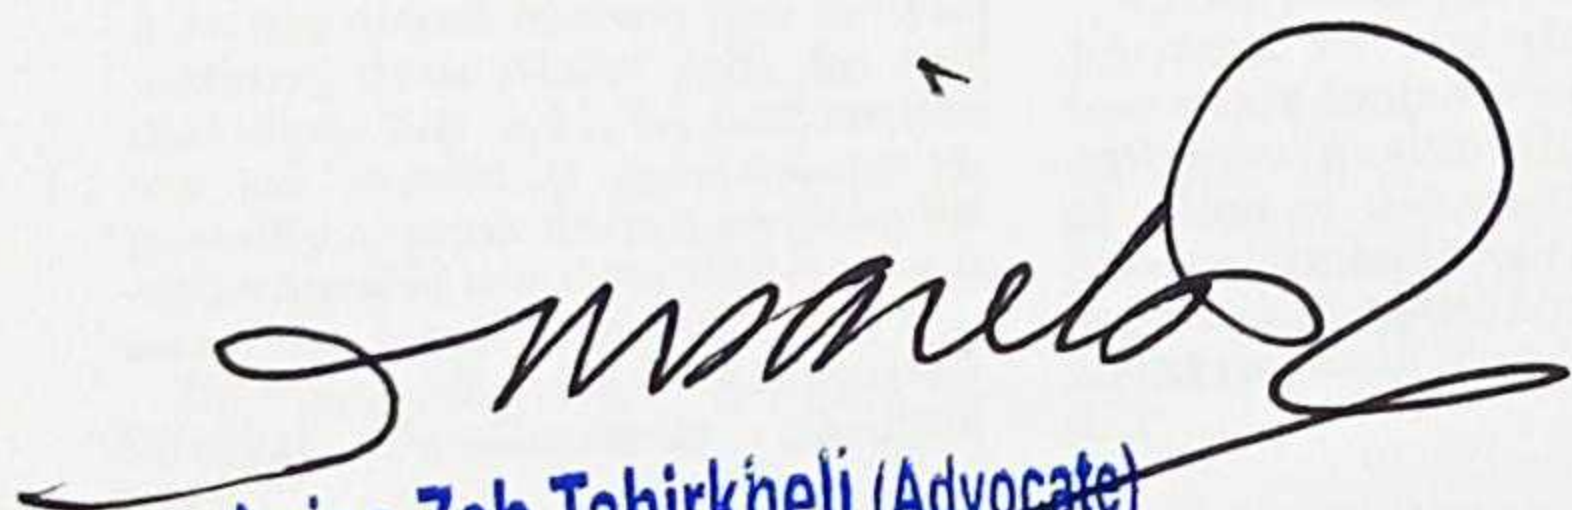

Adjournment Motion

18th April 2014

Mr. Speaker,

I would like to draw the honorable Assembly's attention to a very important issue which received media coverage in papers. The issue at hand is that Chinese investors have shown their displeasure in the Provincial Government, who is creating hurdles, rather than facilitating these investors. As known to all, Khyber Pakhtunkhwa already has an alarming law and order situation, which is driving investors away from the Province. If the law and order situation is coupled with a non-welcoming attitude by the Government this will lead towards unemployment and instability within the Province. These serious investors, if not assisted, would shift their assets to another Province instead. Attached are two newspaper cuttings highlighting the said issue.

Hence, I would ask the Chair to adjourn the routine proceedings and debate over this very important issue.

Anisa Zeb Tahirkheli (Advocate)
Member Provincial Assembly
Khyber Pakhtunkhwa
